<b>1+y, All</b>	17887	33.2	(0.17)	27.6	33.1	38.9

NOTES: Excludes breastfed children and individuals with zero energy intake for the day. Weighted estimates.

Statistics are based on each survey respondent's daily contribution of fat to energy.

SE = Standard error of the mean.

SOURCE: WWEIA, NHANES 2001-2004

**Total energy (kcal): Mean daily intake from all sources by quartiles of percent contribution of total fat to energy intake, one day, 2001-2004**
